A Good Friend

In kindergarten, your idea of a good friend was the person who let you have the red crayon when all that was left was the ugly black one.

In the first grade, your idea of a good friend was the person who went to the bathroom with you and held your hand as you walked through the scary halls.

In second grade, your idea of a good friend was the person who helped you stand up to the class bully.

In third grade, your idea of a good friend was the person who shared their lunch with you when you forgot yours on the bus.

In the fourth grade, your idea of a good friend was the person who was willing to switch square dancing partners in gym so you wouldn't have to be stuck do-si-do-ing with Nasty Nicky or Smelly Susan.

In fifth grade, your idea of a good friend was the person who saved a seat on the back of the bus for you.

In sixth grade, your idea of a good friend was the person who went up to Nick or Susan, your new crush, and asked them to dance with you, so that if they said no you wouldn't have to be embarrassed.

In seventh grade, your idea of a good friend was the person who let you copy the social studies homework from the night before that you had forgotten about.

In eighth grade, your idea of a good friend was the person who helped you pack up your stuffed animals and old baseball cards so that your room would be a "high-schooler's" room, but didn't laugh at you when you finished and broke out into tears.

In ninth grade, your idea of a good friend was the person who went with you to that "cool" party thrown by a senior so that you wouldn't wind up being the only freshman there.

In tenth grade, your idea of a good friend was the person who changed their schedule so you would have someone to sit with at lunch.

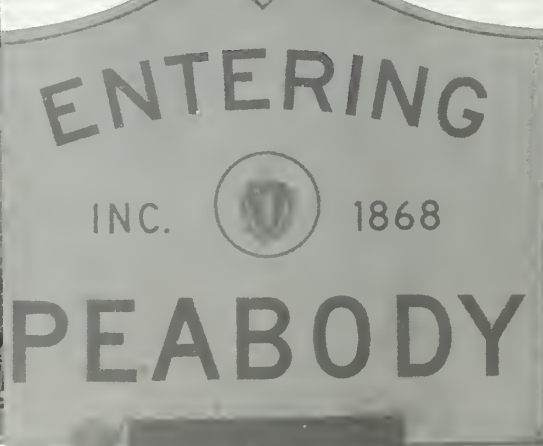

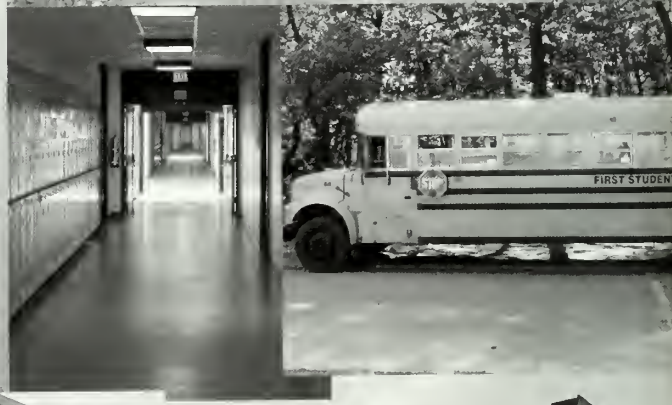

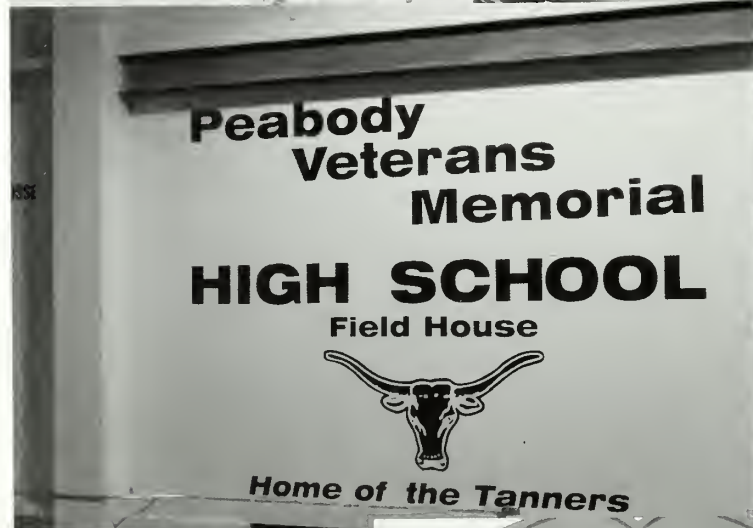

In eleventh grade, your idea of a good friend was the person who gave you rides in their new car, convinced your parents that you shouldn't be grounded, consoled you when you broke up with Nick or Susan, and found you a date to the prom.

In twelfth grade, your idea of a good friend was the person who helped you pick out a college, assured you that you would get into that college, helped you deal with your parents who were having a hard time adjusting to the idea of letting you go...

At graduation, your idea of a good friend was the person who was crying on the inside but managed the biggest smile one could give as they congratulated you.

Now, your idea of a good friend is still the person who gives you the better of the two choices, holds your hand when you're scared, helps you fight off those who try to take advantage of you, thinks of you at times when you are not there, reminds you of what you have forgotten, helps you put the past behind you but understands when you have to hold on to it a little longer, stays with you so that you have confidence, goes out of their way to make time for you, helps you clear up your mistakes, helps you deal with pressure from others, smiles for you when they are sad, helps you become a better person, and most importantly loves you!

LOOKING BACK...

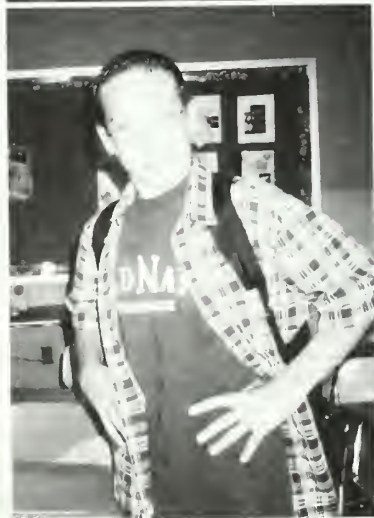

MEMORIES...

BACK IN THE DAY...

The background is a vibrant blue with a complex pattern of white, glowing lines that radiate from the center, creating a sense of motion and depth. Overlaid on this background are numerous instances of the year '2004' in a white, sans-serif font. These '2004's are arranged in concentric, slightly curved paths, some appearing sharp and others blurred, which adds to the dynamic feel of the design.

Farewell Message

"This is not the end. This is not even the beginning of the end. It is, instead, the end of the beginning." - Anonymous

Members of the Class of 2004, we entered the doors of Peabody High as the first freshman class of the new millennium with ambition and a promise to leave a mark on Peabody High. We are confident in the truth that we came, we saw, and without a doubt conquered.

The friendships of high school are both old and new. Old friendships have been strengthened, while new friendships have been formed. "Friendship is the hardest thing in the world to explain. It's not something you learn in school. But if you haven't learned the meaning of friendship, you really haven't learned anything." - Muhammad Ali. As we emerge upon college, the work force, and days ahead, we must remember those who have left a footprint in our lives.

"Teaching is not a lost art, but the regard for it is a lost tradition." - Jacques Barzun. The influence of our teachers and coaches has helped to shape the people we are today. Our coaches taught us the importance of character, integrity, and respect on and off the field. Adapted from Vince Lombardi, "a school without sports is in danger of deteriorating into a medieval study hall." Our teachers have been more than instructors - many of them have taken their role beyond the classroom and have served as advisors, mentors, and friends. The education we will leave with went beyond the classroom; we picked up what we now know from our friends, our parents, our coaches, and our teachers. The skills we have learned will be beneficial for our future.

Most importantly, we owe our successes and the overcoming of our failures to our families, the guiding light on our sometimes dark journeys. It's true that as the world walks out, our parents, siblings, and other loved ones, will still be there, a hand to hold and a shoulder to lean on. "Call it a clan, call it a network, call it a tribe, call it a family. Whatever you call it, whoever you are, you need one." - Jane Howard

We have always lived by our motto, "Winners never quit, quitters never win." We have seen success in nearly everything we have done. We will leave Peabody High "undefeated" in Spirit Week and with plenty of pennies. Our fundraising was unmatched - even as freshmen we knew the importance of the green and the unlimited possibilities of what we could achieve in and out of school. In four years, we have seen success in extra curricular activities and in competitions. From being drama fest finalists to the two time Dalton Award for athletics, we have seen it all. To go along with the Title IX dilemma, we had to create an equalizer to Mr. PHS. We created the tradition of Ms. Tanner City, and once again, our class was successful as we proved that a junior could beat a senior.

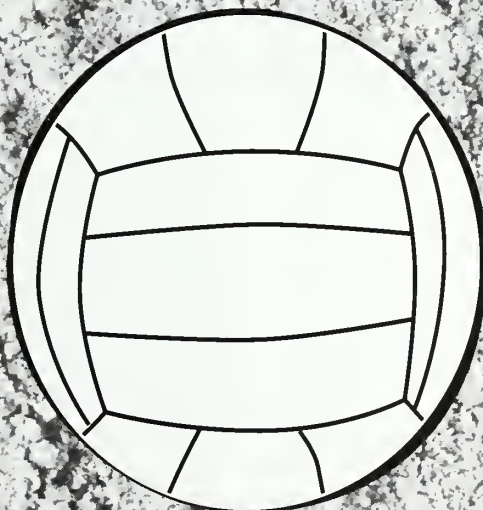

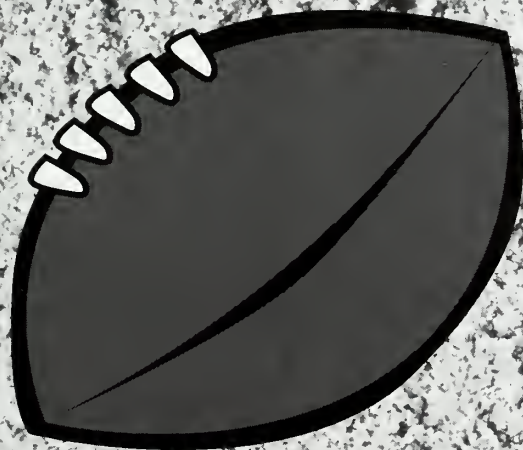

With good times comes times of heartache. We've experienced the loss of our dear classmate and friend, and the national tragedy of September 11th. During these painful times, we came together as a class to support one another.

As a class, we're like the Patriots. We went in as a team, we climbed to the top as a team, and we'll go out as a team. Out the Door in 2004 was our class slogan - who would've known it would already be here?
